Welcome to the 2019 Firearms Catalog.

I am honored to address you today as the newly appointed President of the Firearms Division at American Outdoor Brands. It is truly a privilege to lead an organization that is not only home to the iconic and uniquely American Smith & Wesson® brand, but to a strong stable of popular brands that include M&P®, Thompson/Center™, Performance Center® and Gemtech®. With over ten years of leadership experience in this industry, I have developed a strong appreciation for not only our company’s world class firearms, but for the loyal customers who support our business and the Second Amendment freedoms that they rightfully treasure.

This year, we bring you a number of exciting new products. And while each new product brings you legendary quality and performance, there are a few that I would especially like to point out. Building upon Smith & Wesson’s longstanding heritage in revolver development, we have reintroduced the Model 610 in 10mm Auto – a popular caliber for hunting and personal defense. Additionally, the Performance Center® has developed two new additions to its line: a new Performance Center M&P Shield® M2.0™ with an optics-ready 4-inch slide, and for the first time, a Performance Center M&P®380 Shield™ EZ™ series of pistols. These additions represent our commitment to delivering products that align with the latest and most exciting trends in the industry.

Together, with the talented and creative employees working to bring you innovative products from across all of our brands, we thank you for your loyalty. We maintain our steadfast commitment to delivering the confidence, reliability, and accuracy that you have come to expect from us since 1852.

Lane A. Tobiassen
President, Firearms Division

Pro Series® is used under license.
Precision-built for accuracy and reliability, M&P® firearms are designed to stand up to the conditions you face, day in, day out. We’re confident that your M&P® firearm is capable of handling as many rounds as you are. With an ever-expanding line of full-size, compact and sub-compact pistols, revolvers and modern sporting rifles, the M&P® brand continues to bring innovative, dependable firearms to the serious shooter.
M&P® M2.0™ SERIES
FULL & COMPACT SIZE PISTOLS

- Low barrel bore axis makes the M&P® M2.0™ pistol more comfortable to shoot, reducing muzzle rise and allowing for faster aim recovery
- Accurate 1 in 10” twist M&P® M2.0™ 9mm and 40 S&W barrels and 1 in 15” twist for M&P® M2.0™ 45 AUTO
- Optimal 18-degree grip angle for natural point of aim
- Armornite® durable corrosion-resistant finish on stainless steel barrel and slide
- Sear deactivation lever allows disassembly of the firearm without pulling the trigger
- Picatinny-style rail fits most accessories

Armornite® finish is a hardened nitride finish that provides enhanced corrosion resistance, greatly improved wear resistance, decreased surface roughness, reduced light reflection and increased surface lubricity. Armornite is used on many Smith & Wesson® and M&P® products imparting a high level of protection internally and externally where applied.

M&P® ORIGINAL SERIES
FULL & COMPACT SIZE PISTOLS

- Contoured front slide for easy re-holstering
- Proven optimal 18-degree grip angle for natural point of aim
- Picatinny-style rail fits most accessories
- Three interchangeable palm swell grip inserts for optimal hand fit and trigger reach - S, M, L
- Reversible magazine catch for both left and right hand shooters
- User-friendly rotating takedown lever for disassembly and reassembly of the firearm
- Ambidextrous slide stop gives the ability to operate the firearm easily by both right or left-handed shooters
- Sear deactivation lever allows disassembly of the firearm without pulling the trigger
- Armornite® durable corrosion resistant finish on stainless steel barrel and slide
- Ambidextrous thumb safety is an additional safety feature to block trigger movement (available on some models)

FEATURES

Not all features available in all configurations. See the corresponding section charts on pages 32-33 for individual SKU features.

Includes Three Interchangeable Palm swell Grip Inserts for Optimal Hand Fit and Trigger Reach Sizes: S, M, L

Armornite® finish is a hardened nitride finish that provides enhanced corrosion resistance, greatly improved wear resistance, decreased surface roughness, reduced light reflection and increased surface lubricity. Armornite is used on many Smith & Wesson® and M&P® products imparting a high level of protection internally and externally where applied.
User-Friendly Rotating Takedown Lever for Disassembly and Reassembly of the Firearm

Rigid Embedded Stainless Steel Chassis to Reduce Flex and Torque When Firing
