KEY FEATURES

HEARING PROTECTION
Greatly reduces the user and bystander’s exposure to dangerous sound levels caused by gun fire.

BETTER TRAINING
Reduced gunshot sounds allows Range Instructors to better relay crucial range commands during training.

ACCURACY
Reduces percussion, noises, recoil, and shooter fatigue to aid focus for tighter groups.
**INCREASE COMMAND & CONTROL**
Permit operators to better hear orders, increase situational awareness, and utilize communication devices.

**FLASH SUPPRESSION**
Significantly reduce observed flash and reduced blooming in night vision optics.

**QUICK MOUNT SYSTEM**
Combat proven, ultra-fast, secure and durable mounting system. Facilitates one-handed manipulation in 2 seconds.

ELECTRONIC SIGHTS

The Electro Optics line has offerings ranging from a 3.5x fixed magnification Battlesight with a custom hybrid BDC reticle, to a compact reflex sight with a crisp 3.25 MOA dot designed to mount on pistols. The entire line is constructed from aircraft grade anodized aluminum and all boast easy access battery compartments for quick changes. The Electro Optics Line is all shock, dust, impact, fog, water and recoil resistant.

BATTERY LIFE

Battery life varies depending on use but having years of experience dealing with battery powered accessories we have developed means to maximize potential life. For example, the CTS-1000 has a calculated run time close to a decade at medium brightness & the CTS-1400 utilizes innovations in intelligent battery management systems that senses motion and shut off when not in use. As with the vast majority of our current products, all of our electronic sights and scopes are included in the Free Batteries for Life program.
