Apex Handguard System
The Apex Handguard System is an innovative, lightweight, free-float handguard for AR style weapons.

Advantages include:
- proprietary non-slip GatorGrip™ texture for comfort and control
- strong, simple installation
- rapid heat dissipation
- available in a variety of lengths
- mounts to a standard barrel nut

The Apex Handguard™ is engineered for maximum versatility incorporating the Controlled Tactical Rail Locating system (CTRL™). CTRL™ allows user to select location of rails and rail lengths. With CTRL™ you don’t force your hands to fit the rail and accessory layout...you shape the layout to fit your hands. (Top and accessory rails sold separately.)

Apex Bipod Mount
- for Harris style bipods that fasten into the bottom slot
- sling stud provided for mounting bipods or another accessory
- designed to minimize weight and bulk
- not recommended for use as a sling attachment
- black nitride coated steel for corrosion resistance
- 100% made in the USA

The ATI AR-15 Scorpion Recoil Pistol Grip features ATI’s Scorpion material that absorbs the initial shock wave, which is the felt punch of the recoil. The AR-15 Scorpion Recoil Pistol Grip increases the shooter’s comfort while reducing the muzzle lift. The recoil impact is absorbed by the Scorpion material. The Scorpion material is not affected by chemicals, load size or extreme temperatures, and removes the limitations of spring and piston type recoil suppression systems. The pistol grip finger grooves feature ATI’s Sure-Grip Texture. As always, this ATI product is manufactured in the USA from DuPont® Extreme Temperature Glass Reinforced Polymer, and includes a Limited Lifetime Warranty. Accessorize your M&P® 10 with the ATI Scorpion Pistol Grip.

Bushnell® Elite® Tactical Make a high-performance tactical decision. Precision engineering. Optical excellence. Rock-solid reliability. They all converge in one of the finest tactical riflescopes in the world today. The Bushnell® Elite® Tactical 3.5-21x 50mm provides long range capability in a short 13.2” overall length. The G2DMR™ (Designated Marksman Reticle) features a mil-hash marked, First Focal Plane (FFP) reticle designed for ranging, holdover and windage correction. Featuring RainGuard® HD, Ultra Wide Band Coating, fully multi-coated optics, target turrets and “Blacked-Out” cosmetics.

M-Pro 7® Tactical AR Cleaning Kit The M-Pro 7 Tactical AR Cleaning Kit contains everything needed to maintain all M-16 and AR-15 style rifles. Includes lockable, hard-sided carrying case, foam gun pad and M-Pro 7 Weapons Maintenance & Product Guide.

Millett Tactical Rings. Millett® tactical rings are a lightweight, strong solution for the most demanding uses. Six cap-clamping screws positively hold your scope, no matter the level of recoil and the base clamp holds the scope to the base. Millett tactical rings are your answer to any mounting needs.

The AR2008 by HI-VIZ® Shooting Systems is a light gathering sight, designed to replace standard MIL-SPEC sight posts. The HI-VIZ sight is a steel sight post that fits both AR and M4 rifles with A-Frame or BUIS-style sight bases. The light gathering fibers utilize ambient light to offer a bright, precise aiming point. The bright round aiming point more naturally centers in the rear peep sight and is quite helpful when co-witnessing optics. The sight has two sighting points opposite each other giving a sight picture for every two clicks of adjustment. A knurled steel installation / adjustment tool is provided. The sight offers interchangeable fibers in green and red, and a key for changing the fibers. Also provided is a carrying case and chain for storage of the spare fibers, adjusting tool and key. Try a HI-VIZ AR2008 and see what you’ve been missing!

THE REALITY BEHIND OUR PRODUCTS:

“If you come expecting a fair fight, you are unprepared.” This common saying among military and law enforcement professionals illustrates the core values and mindset that drive everything we do at Magpul®. Our customer base encompasses a broad spectrum of users; everyone from hobbyists and target shooters to the most specialized and highly trained military units in the world. Regardless of the end user or their mission, our goal is to design equipment with form, fit, and function far superior to that of your “standard issue” gear. In short, we want to give you an unfair advantage.
PMAG® 20LR $19.95

- Lightweight, high reliability 20-round polymer magazine for SR25/M110/Mk11 rifles (7.62 NATO/.308 Winchester)
- Compatibility with military-issue 7.62 NATO M118LR ammunition

CTR® CARBINE STOCK $39.95

- Drop-in replacement for the standard M4 stock
- Friction locking mechanism to minimize excess movement
- Enhanced strength and ergonomics
- Reinforced polymer construction
- A-frame design with streamlined exterior
- Shielded operation lever

MBUS® FRONT $39.95

- Adjustable for elevation and fits all MIL-STD-1913 Picatinny rails, specifically the AR15/M16
- Spring-loaded, folding back-up sight
- Positive detent locks front sight post
- Lightweight reinforced polymer construction

STR® CARBINE STOCK $99.95

- Collapsible, drop-in replacement for the standard M4 stock
- Dual side battery storage tubes
- Friction locking mechanism to minimize excess movement

MOE® HAND GUARD $34.95

- For piston and direct impingement AR15 gas systems
- Lightweight reinforced polymer construction
- Drop-in design with modular flexibility
- Front extension provides additional grip length to shield operator from hot front sight assembly.

MOE® RAIL SECTIONS

- 11 SLOTS: $8.95 - MAG406
- 7 SLOTS: $7.95 - MAG407
- 5 SLOTS: $6.95 - MAG408
- 3 SLOTS: $5.95 - MAG409
The new M-308 4-16x42 represents Nikon’s Precision AR Optic technology for heavier caliber rifles capable of long-range accuracy. Designed for extreme sighting speed and superior long-range accuracy with the popular .308 Win AR platform rifles, the new M-308 4-16x42 features a choice of either the new BDC 800 reticle, or Nikoplex reticle and precise Rapid Action Turrets, each calibrated for the trajectory of the .308 Win/7.62 NATO Match round with 168gr. HPBT bullet. The high magnification range zoom makes it the ideal optic for AR10 platforms as well as for long range bolt action rifle applications. Includes M-308 one-piece mount, with built-in 20 MOA slope.

Heavy Duty Quick Detach Swivel, for use with VTAC Slings.

Low Profile Sling Mount (LPSM) presents a lower profile on your weapon.
- VTAC-LPSM is designed to make the Heavy Duty Quick Detach (HQD) Swivel lock in and limit the rotation.
- The LPSM attaches to Picatinny rail.
- HQD sold separately.

Light Mount
- stay in the light
- light-weight, versatile for any Picatinny rail system
- Modified Acrylic PVC Alloy Thermoplastic
- high impact and abrasion resistant qualities
- proven to withstand harshest environments
- out of your field of view & easily activated
- impervious to most chemicals, solvents, oils
- advanced thermoplastics will not shrink
- high quality and innovative

Geissele Super “V”
- designed exclusively for Viking Tactics
- rugged drop in trigger system
- allows for 4-4.5 lb pull weight
- only available from VTAC & our dealers and distributors.

Wide Padded Sling
- all original sling features
- shoulder strap with closed cell foam for comfort
- forward adjustable sling for quick, easy adjustments from any position

XTI™ (Xpress Threat Interdiction™) AR-15 Angle Mount Sights provide the operator an immediate back-up iron sight option when depending on magnified optics for distance shooting. These off-set sights utilize a XS® Standard Dot™ tritium front with shallow ‘V’ white stripe rear and are designed for quick acquisition in CQB situations. Top rail mounted individual sight pieces allow for longest sight radius possible. DIY adjustment for left-hand shooters; tools included in product kit. Excellent addition to Tac optics class 3-gun rifles and patrol rifles with magnified optics. A collaboration project with Lone Star Armory, this product is manufactured by XS® Sight Systems in Fort Worth, Texas.

The AR-GAT™ (Glass Assault Tool) designed by Retired Master Sergeant Paul Howe allows the operator to rapidly and effortlessly breach glass and gain access to high-risk environments while keeping both hands on their primary weapon platform with no effect to their weapon’s zero or combat readiness. AR-GAT™ slips over the MilSpec flash hider and tightens in place with two allen head cap screws; tools included in product kit. Manufactured by XS® Sight Systems in Fort Worth, Texas. LAW ENFORCEMENT ONLY.

XS® 24/7 Tritium® CSAT Flip-Up BUIS XS® Sight Systems now offers a complete BUIS upgrade option for AR/M4 platform. XS® 24/7 Tritium® post TROY® M4 Folding BattleSight front with XS® CSAT aperture TROY® Folding BattleSight rear. The CSAT aperture designed by Retired Master Sergeant Paul Howe is a simple system that allows the operator to engage targets from 0-300 yards without taking their hands off the weapon to flip sights. Use the notch feature for CQB situations, lower eye to peep sight for distance shooting. Available as complete set or for individual front ($155) and rear sight ($125) purchase. A collaboration project with TROY® Industries, XS® Sight Systems products are manufactured in Fort Worth, Texas.
