For sport, recreation, protection and professional use, you can feel confident standing behind 167 years of reliability and accuracy. Throughout the years, the firearms have developed, but the promise remains unchanged. Since 1852, Smith & Wesson® has been providing enthusiasts with firearms they can count on – when only the best will do.

### S&W® Revolvers

The K-Frame revolver is one of the most important innovations in Smith & Wesson history and was built specifically to handle the .38 S&W Special cartridge. Since its introduction in 1899, the K-Frame revolver has been a favorite for military and police professionals as well as target shooters and enthusiasts. Today’s K-Frame revolvers are available in .22 LR, .357 Magnum and .38 S&W Special +P.

Smith & Wesson L-Frame revolvers are built to suit the demands of the most serious firearms enthusiast. Available in five, six and seven shot cylinders, the L-Frame revolver has a strong, durable frame and barrel built for continuous Magnum usage. As police officers and hunters will attest, this firearm is made to withstand heavy use.

*Not all features available in all configurations. See the corresponding section charts for individual SKU features on pages 62-63.*
LARGE FRAME REVOLVERS

FEATURES & BENEFITS

• Stainless steel construction for high strength and less felt recoil
• Various front and rear sights
• Adjustable white outline rear sights
• Smooth double action and short, crisp single action trigger pull
S&W® EXTRA LARGE FRAME REVOLVERS

In 2003 the gunsmiths and engineers at Smith & Wesson® wanted to deliver maximum power for serious handgun hunters. The power they sought required an entirely new frame, the massive “X-Frame”, and was the basis for the new Model S&W500™, the most powerful production revolver in the world. This ushered in the era of the “big gun” and was only the beginning. For ultimate power and velocity there’s nothing even close to an X-Frame model handgun.

Starting with their Extra Large Frame, the Smith & Wesson® engineers worked to deliver maximum velocity - over 2,300 feet per second - to reach the target faster than ever before. The 460XVR™ has interchangeable compensators to accommodate every load. Only Smith & Wesson® could deliver this much power, this much velocity and this much accuracy in a precision, production revolver.

Not all features available in all configurations. See the corresponding section charts for individual SKU features on pages 62-63.
**FEATURES & BENEFITS**

- Stainless steel construction for high strength and less felt recoil
- Compensators for less felt recoil
- Various front and rear sights
- Smooth double action and short, crisp single action trigger pull

The versatile 460XVR™ revolver can fire three different rounds to accommodate any shooting application.

**AVAILABLE FEATURES**

Not all features available in all configurations. See the corresponding section charts for individual SKU features on pages 62-63.

Versatile. Lightweight. The Smith & Wesson® Governor® revolver puts six rounds of customizable response under your control. Load with .410 2 1/2” shotshells, .45 ACP or .45 Colt - alone or in combination with the included moon clips - and hit your target in every situation. Plus, it’s from the leading expert in revolver manufacturing over the past 166 years. Now that’s confidence.
- Patented, heat treated scandium-alloy frame for superior strength and reduced weight
- 6-round capacity
- Shock absorbing grip
- Capable of firing three different rounds: 410 Shotshell - 2-1/2", 45 ACP, 45 Colt
- Matte black or matte silver finish available
