## Accessories

**Smith & Wesson®**

SPRING 2012

## SLIM, CONCEALABLE POWER IN 9MM & .40 S&W

M&P Shield™ combines all of the fine-tuned advantages that make M&P™ pistols comfortable to shoot with a slim, one-inch profile for comfortable carry. From the optimized 18-degree grip angle providing a natural point of aim, to the best-in-class M&P durability—M&P Shield is a professional-grade, conceal carry pistol designed to shoot as well as it conceals.

# BLACKHAWK!

The BLACKHAWK! Tuckable Holster is made using the finest materials in order to ensure superior comfort, quality and durability. Constructed of premium leather, this unique concealment holster allows you to completely conceal your pistol without having to wear a cover garment or an untucked shirt.

The inconspicuous belt clip slides onto your pants while your weapon stays tucked under your shirt, and the rough-side outer material provides a secure, non-slip fit.

The better you can see the front sight, the faster you can get on target. HI-VIZ® Shooting Systems sights incorporate cutting edge LitePipe technology that provide superior target contrast, allowing for faster target acquisition while enhancing focus on the front sight. Superb at gathering whatever light is available and creating a brighter sight picture makes it easier to focus on your target. They have proven to be reliable and long-lasting in the field and at the shooting range.

Housed in a high-quality steel base, the revolutionary patented LitePipe design is protected by a durable clear resin overmold making it holster-friendly. Available in Green or Fire Red and proudly made in the USA.

LaserLyte® proudly introduces the UTA-SH for the M&P Shield™. The laser is easy and quick to mount on the M&P Shield trigger guard and snugs-up securely to the dust cover. It's simple to activate with the ambidextrous, ergonomic switch. The LaserLyte® UTA-SH laser is easily programmable to either constant on or pulse mode. Another great function is the “auto-off” feature that displays a unique flash after 5-minutes of operation and automatically turns the unit off after 6-minutes. In actual usage the battery life lasts 10 hours in constant on and 20 hours in pulse mode. Actual usage is 1 minute on, 1 minute off. Made of 30% glass filled nylon and steel mounting hardware, this laser is ready for anything.

# LaserMax

## PRECISION. PROTECTION.

Get the laser that looks as good as the gun itself!

The LaserMax CENTERFIRE offers the highest quality laser and was created with the same tactical design that matches the style and contours of your Smith & Wesson M&P Shield™ 9mm pistol. The CENTERFIRE laser mounts directly to the frame without changing out parts or altering your firearm - user installed in minutes. The constant red laser beam sits just under the bore for highest accuracy and prevents your finger from blocking the beam. Patented, ambidextrous activation for right or left-handed shooters with a distinct On/Off switch that turns the laser on only when you need it.

Weighing only 0.5 oz, the 650nm laser uses a 1/3N Lithium battery (included) with a battery life of 5+ hours and a one year warranty. The CENTERFIRE laser has been factory aligned at 10 yards and is user adjustable for windage and elevation.

Part Description	CENTERFIRE laser for M&P SHIELD™
MFG Part Number	CF-SHIELD
MSRP	\$129.00

# Pistol Wear™

Pistol Wear™ is a Concealed Carry Holster manufacturer that specializes in making off-duty concealment holsters that are not dependent on the user's clothing to function properly. Our holsters are lightweight and incorporate an original patent pending design that is comfortable and concealable. Our company focused on making a holster that can be worn and used effectively with athletic apparel. The holster design holds the firearm inside a soft pouch that is retained snugly against the user's body and does not bounce. The PT-2 is a single pouch version that utilizes a smaller footprint and narrower belt. The PT-2 holster can accommodate a variety of carry positions and was designed to fit compact semi-autos or small revolvers. Like all Pistol Wear holsters, it features a breathable belt, retainment strap, noise-free access to the firearm and the pouch is perspiration and solvent resistant.

Part Description	PT-2 Black
Part Number	20460012
MSRP	\$37.50
