S&W Galaxy 28 LED Flashlight
\$44.95

Overview

SKU: 360000540

One of the most versatile flashlights on the market today, the Galaxy 28 LED, is a step above anything you've seen. This flashlight comes with 20 Ultra Bright White LED's, 4 Red LED's for night vision and 4 Blue LED's for low light veiving. This flashlight features the latest MSAT switch technology which allows the white LED's to operate on one switch while the color LED modes are activated on a separate switch allowing the user to never second guess losing natural night vision. The shatterproof diodes last over 110,000 hours and will never need replacing. Includes 3 AAA batteries and a deluxe holster with a spare battery holder.
