RH Matrix Paddle Holster J&E 2-1/8"
\$34.95

Overview

SKU: 198900000

This right hand M5X injection molded thermoplastic paddle holster from Galco is durable, lightweight, comfortable and nearly maintenance free - while remaining fast in action, concealable and easy on the budget. The M5X securely positions the handgun at the beltline with a moderate butt-forward angle, enhancing concealability, yet maintaining ease and speed of draw. Twin tension units allow the user to micro-adjust the feel of the draw while retaining a proper level of firearm retention. Unlike many other plastic holsters the M5X resembles a hand molded Galco leather holster. It is designed to be used with Smith & Wesson J-E 2-1/8" barrel. The M5X paddle fits belts up to 1-3/4".
