Ambidextrous Pocket Protector Holster J&E 2-1/8"
\$26.95

Overview

SKU: 198920000

The Pocket Protector™, from Galxo, is designed for front pocket carry in pants or a jacket. The Pocket Protector keeps the firearm in the same general position so you can quickly locate the grip when you need to draw, conceals the shape of the gun so that its outline is not printed through the pants, and allows one handed release of the gun from both pocket and holster. Constructed of premium Center Cut Steerhide™ reinforcements at the holster mouth and beneath the trigger guard keep the holster stiff enough to allow a smooth draw and easy return to the holster. The holsters hooked shape at the base of the handguns trigger guard is designed to catch on the pocket so that you can draw the firearm while the holster remains in your pocket or falls away. It is designed to be used with Smith & Wesson J-E 2-1/8" barrel. The Pocket Protector™ is ambidextrous.
