A Legend in the Making: Smith & Wesson Introduces New Model 350

SPRINGFIELD, MA., (08/16/2022) - Smith & Wesson Brands, Inc. (NASDAQ Global Select: SWBI), a leader in firearm manufacturing and design, introduces the new Model 350, our first production revolver chambered in the powerful straight-walled 350 Legend caliber.

The Smith & Wesson Model 350™ is an X-Frame size, double-action/single action revolver with an all stainless-steel construction. Its design includes a 7.5" ported barrel, red ramp front sight & adjustable rear sight system, and dependable Hogue® rubber grip. This revolver has a 7-round capacity and a cylinder that utilizes moon clips for loading and unloading. For those of you who like to hunt, or carry a large frame revolver in the woods, this is an exciting addition to the X-Frame offering from Smith & Wesson. "The 350 Legend is one of the flattest shooting straight-walled cartridges on the market today. It is great for medium-sized game, and especially whitetail hunting. If you're looking for a hunting revolver, the Model 350 is it," said John Myles, Senior Manager of New Products.

Well known for building some of the most powerful revolvers of all time, Smith & Wesson is proud to bring you the Model 350, chambered in 350 Legend. The MSRP for this revolver is \$1,599.00.
