Smith & Wesson® Launches Optics-Ready M&P®9 Shield Plus

Smith & Wesson® M&P9 Shield Plus now available with a 3.1” optics-ready slide

SPRINGFIELD, Mass., (Oct 5, 2021) – Smith & Wesson Inc. announced today that it has expanded its line of M&P Shield® Plus pistols to include a new optics-ready variant, the M&P9 Shield Plus 3.1” OR. Building on the popular M&P Shield Plus series, this new model features a 3.1” slide cut for optics, and front and rear night sights.

Vince Perreault, Senior Brand Manager, said, “The use of optics on concealed carry handguns has become increasingly popular as owners look for ways to enhance their accuracy and shooting experience. Responding to consumer feedback, we’re now proud to offer a highly sought-after combination – our M&P9 Shield Plus pistol complete with a 3.1” slide cut of optics as well as night sights. These popular aftermarket modifications are now available in the M&P Shield Plus, straight from the factory.”

The new M&P9 Shield Plus 3.1” OR features a variety of enhancements including a flat-face trigger, an optimized grip texture designed for concealed carry, and two-magazines: an extended 13+1 round magazine and a flush fit 10+1 round magazine. It features the hallmark 18-degree grip angle of the M&P pistol series for a natural point of aim, helping to better manage recoil, and get back on target quickly.

The MSRP on the M&P9 Shield Plus 3.1” OR pistols is \$595.00.
