Smith & Wesson Introduces New Limited-Edition Spec Series™ Pistol Kit

SPRINGFIELD, MA., (07/27/2022) - Smith & Wesson Brands, Inc. (NASDAQ Global Select: SWBI), a leader in firearm manufacturing and design, introduces the new M&P® M2.0™ Compact Optics-Ready Spec Series Pistol Kit.

Born from evolutions in the professional and shooting enthusiast markets, the M&P Spec Series line advances with its 3rd iteration. The newest edition places emphasis on delivering a package that is ideal for those looking to hone their skills and push their limits. The new Spec Series pistol comes complete with co-witness sights and a 4.6" threaded barrel, making it an optimal choice for suppressed shooting. Also included is our C.O.R.E. system, designed to give the user the ability to mount their preferred handgun optic to maintain accuracy and proficiency when firing. The inclusion of two 23-round 9mm magazines means less time reloading and more time practicing. The additional 15-round magazine trims down the overall size of the new Spec Series and allows for a more concealable package. The M&P Spec Series kit includes an M&P knife that features a 4" blade with an overall length of 9" and a collectable M&P Spec Series Challenge Coin. The MSRP on this limited-edition Spec Series Pistol Kit is \$799.00.
